XVI. WiFi Policy

The Mercer Public Library (MPL) provides an unfiltered wireless internet access point for use by the public. This service is for patrons with WiFi-capable devices such as laptops, smartphones, and tablets. The library cannot guarantee the reliability of the wireless service or that it will be available at all times.

Individuals may need to know how to use their wireless device's configuration software to connect to the wireless network. Library staff is not allowed to configure patrons' laptops or handheld computers or install any devices or software on those computers.

Wireless networks are not secure, and use is at the individual's own risk. Virus, security, and privacy protection are the responsibility of the patron and are not provided by the library.

The library's wireless internet access is unfiltered, and the library assumes no responsibility for its content. By choosing to use this free service, patrons agree to abide by the library's Internet Use policy.
